

Campaign Marengo Scenario and Campaign Lists - Introduction

List Comments

The scenario list for Campaign Marengo includes over 120 scenarios that are in the main folder. It does not list the campaign scenarios, many of which are good stand alone situations in their own right. The campaigns have their own listing.

The players should note that the scenario file name lists whether a scenario is HTH - Head to Head or SOLO - meaning that it has AI scripts and can be played against the program. There were several HTH scenarios in the game which because of their complexity do not have a Solo counterpart. Others were simplified to allow for a more balanced situation when converted to a Solo setting.

Three design scenarios are included for Scenarios Designers to use as well as those that would like to see all of the uniforms for the soldiers for this time period. They show the layout of the images that are part of the game.

Key to the Scenario List

Each scenario has a filename, scenario name and amount of turns on each line.

Filename - has a number, the name of the action/battle and whether it is a Head to Head (HTH) or Solo (SOLO) scenario. If the scenario is a variant then the letter V followed by a number is listed after the name of the action/battle.

Examples:

Filename	Explanation
012_Dego_SOLO.scn	Scenario #012 - action is Dego - Solo version of the scenario
009_Dego_V1_HTH.scn	Scenario #009 - action is Dego - Variant #1 - Head to Head version

Title - the title of the scenario as listed in the Scenario Header.

005. Montenotte: Napoleon's First Victory in Italy

Number of turns - a number indicating how many turns the scenario lasts.
