

Republican Bayonets on the Rhine Scenario and Campaign List - Introduction

List Comments

The scenario list for Republican Bayonets on the Rhine includes 28 historical battles and over 200 scenarios that are in the main folder. This also includes Bonus, select campaign scenarios and also 15 min turn format scenarios.

The players should note that the scenario file name lists whether a scenario is HTH - Head to Head or SOLO - meaning that it has AI scripts and can be played against the program. There were several HTH scenarios in the game which because of their complexity do not have a Solo counterpart. Others were simplified to allow for a more balanced situation when converted to a Solo setting.

Three design scenarios are included for Scenarios Designers to use as well as those that would like to see all of the uniforms for the soldiers for this time period. They show the layout of the images that are part of the game.

Key to the List

Each scenario has a filename, scenario name and amount of turns on each line.

Filename - has a number, the name of the action/battle and whether it is a Head to Head (HTH) or Solo (SOLO) scenario. If the scenario is a variant then the letter V followed by a number is listed after the name of the action/battle.

Examples:

Filename	Title
001_Valmy_FB-H_HTH.scn	001. The Battle of Valmy
FB-Full Battle, H-Historical, HTH-meant for Head to Head play	

016_Jemappes_SG-H_SOLO.scn	016. Jemappes: Assaulting the Northern Flank
