

Campaign Eylau-Friedland Scenario and Campaign List - Introduction

List Comments

Campaign Eylau-Friedland includes 4 campaign files, 21 historical battles (or actions) and over 200 scenarios that are in the main folder. This also includes Bonus, select campaign scenarios and also 15 min turn format scenarios.

The players should note that the scenario file name lists whether a scenario is HTH - Head to Head or SOLO - meaning that it has AI scripts and can be played against the program. There were several HTH scenarios in the game which because of their complexity do not have a Solo counterpart. Others were simplified to allow for a more balanced situation when converted to a Solo setting.

Three design scenarios are included for Scenarios Designers to use as well as those that would like to see all of the uniforms for the soldiers for this time period. They show the layout of the images that are part of the game.

Key to the List

Each scenario has a filename, scenario name and amount of turns on each line.

Filename - has a number, the name of the action/battle and whether it is a Head to Head (HTH) or Solo (SOLO) scenario. If the scenario is a variant then the letter V followed by a number is listed after the name of the action/battle.

Examples:

Filename

021_Golymin-H_HTH.scn

FB-Full Battle, H-Historical, HTH-meant for Head to Head play

075_Eylau_SG3-H_HTH.scn

SG-A segment of the full battle, H-Historical, SOLO-meant for Solo play

Title

021. The Battle of Golymin

075. Eylau: Murat's Charge

Other abbreviations:

V-Variant (V1, V2, etc)

V1-1st Variant of the historical scenario

1D-1st Day of the battle, 2D-2nd Day (etc)

LS - Later Start (note: does not mean that the battle started later - basically a shorter full battle situation)

Bonus - Bonus scenario

Camp - Campaign scenario

Order of Battle Review Scenarios

See the OB_View folder

No listing is provided for these scenarios. One was included for every OB file in the game. Use the Scenario Editor or Main Program to open these files. If you use the Scenario Editor make sure you do not save the file if prompted to do so. Do not use Fog of War if you use the Main Program.
